

How every £100 of rent is spent

Overall we spent **£3,569** per home (cost per unit) compared to **£3,212** per home last year.

£62

Investment in current homes and developing new homes

The money we spend on repairs and improvements to your homes, and building new affordable homes for future generations.

£30

Providing services to you

The money we spend on delivering services in your homes and communities.

Loan interest

We borrow money to invest in your homes and build new ones. Some of the rent we receive goes to pay back the interest on money borrowed for current and future home investment.

£6

Rent loss

We set money aside to cover any rent or service charges we aren't able to collect. We collected 98.95% of rent due (£76.6 million out of £78.4 million).
