You told us... we listened

During the development of this Strategy we have consulted with and listened to the views of tenants, colleagues, partners and stakeholders to identify what matters to them. We have also taken into account the regulatory, political and economic context we are operating in.

We have used this information along with rich insight from complaints, operational performance and deep dives into customer facing services through customer journey mapping to develop our desired strategic outcomes and the actions we need to take to achieve them.

Our Board's appetite for risk, along with managing organisational risk, has also informed the development of this Strategy which sets out how ForHousing will drive forward to improve and provide safe, well maintained homes and customer focused, equitable and efficient services over the next five years.

We have consulted with and listened to the views of **tenants, colleagues, partners and stakeholders to identify what matters to them.**
